PRICING POLICIES

PLEASE READ CAREFULLY

Within this agreement contains the complete terms and conditions pertaining to your involvement as a customer/vendor of AJP Distributor. By signing the AJP Distributor dealer application as well as purchasing our products, you as a customer/vendor are confirming that you have read this whole agreement and agree to abide by the terms and conditions contained in this Agreement. Please read the following policies carefully and thoroughly before proceeding.

***ABSOLUTELY NO LOWER THAN RETAIL PRICING** may be advertised in any form including EBay, Amazon, Yahoo Auctions, Craigslist, & any other online retailers selling AJP Distributor products. (All vendors planning to sell on these venues listed must be authorized by AJP Distributor.) With the utilization of our dealer networks, MAP pricing policies on all dealers, distributors and vendors of AJP Distributor products will be strictly enforced by AJP Distributor. There is a ZERO Tolerance policy with the MAP policy, however warning(s) may be given by AJP Distributor or its vendor if deemed necessary by AJP Distributor.

***You hereby agree to indemnify and hold harmless AJP Distributor and their respective directors, officers, employees, agents, partners, members, other owners, & its subsidiaries** against any and all claims, actions, demands, liabilities, losses, damages, judgements, settlements, costs, & expenses (including reasonable attorneys' fees) (any or all of the foregoing hereinafter referred to as "Losses") from any damages (whether physical or psychological), injuries, permanent disabilities or deaths caused directly or indirectly by any of AJP Distributor products or services.

***You are aware that AJP Distributor is a registered & trademarked brand.** The usage of the AJP Distributor logo, AJP Distributor name, design, art, copyrighted text, mark, & any media in any form must be granted and given the authorization by AJP Distributor and its sole trademark owners. AJP Distributor reserves the right to grant, remove, change authorization/permission usage on a case by case basis. AJP Distributor authorization is subject to change at any time.

***All AJP Distributor parts are recommended to be installed by a professional mechanic in a legitimate equipped commercial workshop.** Any damaged or missing parts reported during installation will not be refunded in which any requests will be denied. All technical information and specifics provided by us will be used at your own discretion. AJP Distributor bears no responsibilities for any misunderstanding(s) and misinterpretation(s). Due to strict U.S. Federal & State Safety crash guidelines, buyer understands that AJP Distributor is not responsible or held liable for any damages or possible injury incurred upon possible accidents due to driver error, incorrect installations, bad judgement or act of nature, etc. All interior/exterior components are only recommended and legal to be used for off road purposes such as track racing usage or for exhibition show/events ONLY. Buyer also understands that all AJP Distributor products may need modifications for a correct fitment.

***All technical information & specs provided by AJP Distributor will be used at your own discretion.** AJP Distributor bears no responsibilities for any misunderstanding(s) and misinterpretation(s).

***By accepting AJP Distributor shipping quotations and the shipping dates, you have agreed to abide by our sales' terms & conditions set forth in this purchase order.** Any orders once confirmed after shipping charges and shipping dates has been accepted/sent, cannot be cancelled unless an agreement has been made. End-users are held responsible making sure that they are ordering the correct part(s) for the correct application(s).

***Returns are subject upon AJP Distributor approval.** All returns require approvals. AJP Distributor must be notified within 48 hours of return shipping and a RMA must be requested for return shipment. Returned items are subject to a restocking fee of 15%-30% (depending on the merchandise, or unless otherwise agreed upon).

***AJP Distributor DOES NOT guarantee the legality of any products we sell.** You as a customer/vendor are responsible to check local and state laws regarding vehicle modification before any ordering takes place. Certain AJP Distributor parts we sell are for racing ONLY, & are NOT legal for use on public roads or streets. All engine modification components, except those that are exempt are designed & intended for off-road applications. Many state laws prohibit the removal, modification, or rendering inoperable of any device or element of design affecting vehicle emission or safety in a vehicle used on public highways. Violation of such laws may subject the owner or user to certain fines or penalties. Installed AJP Distributor parts may void the warranty coverage on your vehicle. You understand that vehicles modified by the use of performance parts can no longer be lawfully operated on public highways.

***AJP Distributor reserves the right to modify any of their terms & conditions contained in this Agreement, at any time & in AJP Distributor's sole discretion.** Modifications may include membership or dealer program(s) changes, as well as payment procedures & rules.

TERMS & CONDITIONS

PLEASE READ CAREFULLY

All orders placed with AJP Distributor (phone, fax, mail, verbal, or email) either directly or through a dealer, are hereby acknowledged, accepted, & will take effect of all the terms & conditions listed below:

Warranty & Disclaimer

AJP Distributor products sold may not be legal for street usage in all states. Buyers are responsible to comply with applicable state laws. Buyer understands that due to strict U.S. Federal & State safety crash guidelines, AJP Distributor is not responsible or liable for any damages and or possible injuries incurred upon possible accidents or incidents due to driver error(s), incorrect installation(s), bad judgement(s), or natural causes/disasters. AJP Distributor products are intended for off-road use only, and should be used for that intended purpose only. AJP Distributor takes no responsibility over buyer installation(s), modification(s), and unusual stress of the product(s). It is the buyer's responsibility when determining the suitability of the products. AJP Distributor is not responsible for any damages incurred directly or indirectly on vehicles or operators/passengers within the vehicles.

Installation

Professional installation is recommended on all AJP Distributor products. Buyer understands that some products may require modifications correct fitments. Minor adjustments may be necessary during installation. AJP Distributor aftermarket products have been designed to fit the original factory vehicles as closely as possible. However certain modifications may take place to correct fitment issues. Buyer agrees to these terms before installation. Buyer must pre-fit the parts to the vehicle before any type of painting to ensure proper fitment. There are absolutely no returns on AJP Distributor painted products made by the buyer(s).

Customer Service

AJP Distributor does not sell to directly to the public. Customer service related issues must be addressed and directed to the dealer, where the dealer would then contact AJP Distributor. Any end-user sales or service related inquiries will not be answered from AJP Distributor. Any inquiries that include, but are not limited to, obtaining tracking numbers, obtaining authorization for returns/exchanges, filing a claim for shipping damages, and claiming for defects. All end-users will be referred back to the dealer from where the products were purchased.

Shipping Damage

AJP Distributor packages all products carefully to prevent damage during shipping. Due to shipping logistics, damaged packages may occur from time to time. Buyer is expected to inspect the packaging and the products carefully when receiving them, then accept the shipment & notate any damages or any irregularities, such as crushed, or broken parts on both the packaging and the product, on the freight bill or receipt at the driver's presence. Buyer must retain and keep all cartons, packing materials, and damaged products for the carrier's damage inspector to inspect. Do not refuse shipment or return it without approval, because the buyer's right to make a damage claim may be denied. A signed receipt without any notation indemnified the carrier as well as AJP Distributor from any further damage claims. After a clear delivery, the customer is now held responsible for any discovered damages. This is very important for any types of shipping damages.

Within 24 hours, all damages must be notified to the carrier and the dealer. In cases of damage with proper notation on the receipt, the carrier will then determine whether to pay for repair cost(s) or replacement value of the damaged goods after its thorough inspection. Replacement value is the amount the buyer paid to the distributor. Replacement value is not negotiable. All disputes about the settlement amount should be addressed with the carrier. AJP Distributor under no circumstances, shall be liable for the damaged product(s) or for subsequent settlement of the claim with the carrier.

Returns

When a special order is placed, it cannot be returned. If the buyer decides to return any part of the ordered item, the buyer must contact the distributor who in turn will contact AJP Distributor directly and receive a return authorization within 3 days of receiving the parts. A "Return Authorization Number" (RA Number) will be issued to the buyer by AJP Distributor & must be written on the outside of the packages when being returned. Returned products must be received back at AJP Distributor within 10 days of issuing the return authorization. NO RETURNS for any parts that have been used, modified, painted, or installed. All returned products are subject to a 30% restocking fee. Shipping and handling fees are not refundable. All approved returned products are for store credit only. All products returned must be in the original shipping package as it was in the same condition when delivered or shipped. Only the original buyer may request for a return of products. Defective items can be exchanged for the same item only. AJP Distributor shall inspect the parts to determine their exact condition upon receipt of returned parts. Buyer must accept any incurred costs if AJP Distributor does not accept the goods as being defective and/or returnable. Regardless of the underlying reason, any returns must be sent with shipping prepaid. Any returns sent shipping collect or without RA Number will be refused and returned to the buyer at buyer's own expense. Shipping costs to and from the purchaser are not refundable. For the buyer's protection, the buyer is advised to insure all returned goods for their full value. AJP Distributor nor the shipping company would be responsible for any damage or loss upon shipment. There are no refunds on returned products that are damaged on the way back to AJP Distributor.

Products That Are Defective

Professional installation is required for all products. However, minor adjustments may be necessary. Due to normal body work and installation steps, products are NOT considered to be defective. Pictures are required to demonstrate product defects on products prior to return.

Errors In Shipping

Due to AJP Distributor's error, if any, if the consignee receives an incorrect item, the consignee must inform the dealer within 3 days of receipt of shipment. AJP Distributor will then issue a "Call Tag" to pick up the incorrect item(s) and ship the correct item(s) at no additional charges.

Backorders & Shipping

In case a backorder is necessary, AJP Distributor will ship the order out as soon as the parts are available. Backorders must be canceled within 5 days from when the order is placed, or before when the parts are available. Otherwise, parts will automatically be shipped to the buyer. AJP Distributor does their best to ship regular in-stock items the following business day. Allow 5-10 business days for any in-stock items to arrive. All shipping dates are approximate. Buyer is fully responsible for all shipping charges, unless otherwise negotiated with AJP Distributor. Additional costs will incur when shipping to residential addresses (as opposed to business addresses).

Liabilities

AJP Distributor shall not be liable for any types of failures to produce product to buyer when the causes are the result of the forces of nature, supplies or material shortage, acts of local, state, national, civil, or other authorities, or public agencies; utility or communication failures, accidents, strikes, transportation problems, labor disputes or any act or cause that normally wouldn't occur in the normal operations of AJP Distributor's business.

*Buyer is aware that all parts shall remain the property of AJP Distributor until paid in full.

*Buyer is aware that all prices and specifications are subject to change without notice.

ANTENNA/BLOW OFF VALVES

ANT-001
Universal Antenna Shorty Style
Carbon Fiber, Red, Blue, Purple, White

UNIVERSAL ANTENNA SHORTY STYLE.

Shorty style antenna. Replaces the original antenna.

Easy to install: Takes just 2 minutes.

This item gives your car a sporty look enhancing the exterior. M5 and M6 threaded adapter studs included.

Application: Refer to our Application List. Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Basic Mechanical Skill.

BLOW OFF VALVES.

JDM Sport SSQV Blow Off Valve. Direct bolt-on for all turbo applications with flange universal fitting kit. These blow off valves are easily adjustable to prevent both premature boost leakage and compressor surge. The spring stiffness adjustment screw and the two different sizes give the user the option to match vehicle with mild upgrades to heavily tuned engines. It can hold up to 1200hp or 25 psi of boost pressure.

Application: Refer to our Application List. Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation Is Highly Recommended.

BOOST CONTROLLER/BYPASS VALVES

BC-001
Universal Boost
Controller
Blue, Red,
Black, Purple

BOOST CONTROLLER.

In order to avoid replacing wastegate springs, which only give a fixed increase that is not adjustable, a boost controller will be the most cost effective solution. Allows adjustable boost psi settings, light weight design to be mounted under the hood. Hardware is included.

Electronic boost controllers control the pressure signal the wastegate actuator sees by using either a stepper motor or a solenoid.

Electronic controllers also offer digital displays in which users can input boost levels and the controller does the rest.

Application: Refer to our Application List. Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation Is Highly Recommended.

BYPASS VALVES.

A Bypass Valve filter helps your engine intake to have consistent air flow and prevent hydraulic lock. Many cases driving under heavy rain or wet floor, after-market cold air intake will often absorb the moist into the filter, having it unable to have air flow. The bypass helps resolve that problem, by having a 2nd air filter.

Application: Refer to our Application List. Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Basic Mechanical Skill.

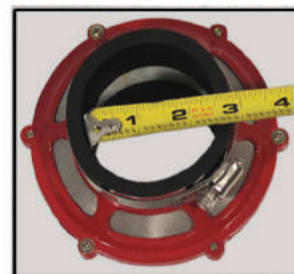

Also Available: AEB-250 - Universal 2.5 Inch Air Bypass Filter - Blue, Red, Silver, Gunmetal.

CAMBER KITS/CAM GEARS

CAMBER KITS.

These JDM Front Camber Kits will accurately dial in your suspension setting with quick adjusting sliding ball joints. By applying this JDM racing front camber kit will offer your vehicle +/- 4 of adjustability and range for fine-tuning your suspension.

Rear Camber Kits improve the handling of your car. Lowered cars change the way tires are seated onto the road. This can cause uneven tire wear and loss of traction. Changing the camber of a car puts the wheels back onto a position where the most traction and the most even tire wear is achieved.

Application: Refer to our Application List. Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation Is Highly Recommended.

HONDA D15/D16CAM GEAR CG-024GD

CAM GEARS.

Maximize Engine Performance.

Adjustable Cam Gears are CNC-machined from AL7075-T6 billet aluminum. The 5-bolt(SOHC)/4-bolt(DOHC) design eliminates chance of movement while the hard-anodized finish prevents premature wear. They allow for accurate tune adjustments to cam timing to maximize engine performance.

Featured Applications: Honda B16/D15/D16 & Nissan SR20 Cam Gears.

*Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation Is Highly Recommended.

CATBACK EXHAUST SYSTEMS

FORD FOCUS CATBACK EXHAUST

HIGH DEVELOPED PERFORMANCE.

AJP Distributor carries high developed performance exhaust catback systems for both turbo charged and naturally aspirated applications with offset muffler and piping design for many street applications. It offers a greater flow and higher RPM power gains as engine tuning levels increase. Depending on the application, the piping is 2.5" inch and tip is 4.5" inch in diameter. Exhausts are made from polished SUS304 stainless steel piping and muffler shell with titanium tip and silencer.

Application: Refer to our Application List. Contact AJP Distributor for additional applications/inquiries.

CRANKSHAFT PULLEY/ENGINE DAMPER

2005-2013 VOLKSWAGEN 2.0T
CRANKSHAFT PULLEY

CRANK IT UP.

- Made Out Of T6061 Light Weight Aluminum.
- Anodized For Durability.
- Reduces Power Draw From Alternator, Power Steering Pump, & A/C Compressor.
- To Reduce This Power Draw, We Designed A Smaller & Light Weight Pulley To Replace The Factory Pulley.

- The Result Is Less Power Drawn By Your Engine's Accessories & More Power To The Wheels.
- Increases 5-7 Horsepower.
- 20% Under-Drive Reduction.
- Colors: Red/Blue/Purple/Gold
- Professional Installation Highly Recommended.

Application: Refer to our Application List for makes & models.

APPLICATION LISTING:

CP-002	HONDA B16A
CP-004	MITSUBISHI LANCER EVO 1 2 3
CP-013	MITSUBISHI LANCER EVO 7 8 9

ALSO AVAILABLE FOR:

KEEP YOUR ENGINE STABLE.

- Made from high quality CNC machined aluminum.
- Improves off the line acceleration and vehicle stability.
- Will reduce wheel hop and shock loads.
- Reduces wear on exhaust system joints.
- Better throttle response and smoother shifts.

Application:
Available for Honda/Acura/Nissan/Infiniti
Installation difficulty:
Professional Installation Highly Recommended.

FILTERS/FLEX PIPE

FIL-003

3-Inch Universal Filter

AIR FLOW EFFICIENCY.

Cold Air Intake Filters are made to perform with any aftermarket pipe with a 2.5", 2.75", 3" diameter. Made from high quality stainless steel, the plate and mesh can withstand rusting from cold air and high moisture environments. The micro cotton fiber is easily washed to keep the air flow at optimal levels without debris congestion. An estimated 95% performance filtration efficiency for your car.

Professional Installation Is Highly Recommended.

APPLICATION LISTING:

FIL-250	2.5 Inch Universal Filter
FIL-275	2.75 Inch Universal Filter
FIL-003	3 Inch Universal Filter

HYDRAULIC E-BRAKE.

Universal Hydraulic Handbrake/E-Brake System.

This high quality Hydraulic Handbrake is a necessity for any drift or rally vehicle. The lever can be used in either a normal or upright position by simply changing the handle position by undoing one bolt. Drifting and Rally driving requires extensive use of the handbrake, and eliminates the weakness in standard cable type handbrakes. This hydraulic handbrake requires a lot less force to lock the rear brakes when desired.

*Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation Is Highly Recommended.

MAXIMIZING AIR INPUT.

Each Cold Air Intake System is built from 6061, T6 aluminum alloy to ensure the lightest design possible. Airflow intake kits allow you to use a filter, maximizing the air input your factory air box can't compare to. Cold Air Intake Systems are easy to install as it replaces your old factory airbox with the intake pipe and filter.

Application: Refer to our Application List. Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation Is Highly Recommended.

INTERCOOLER WITH PIPING KIT.

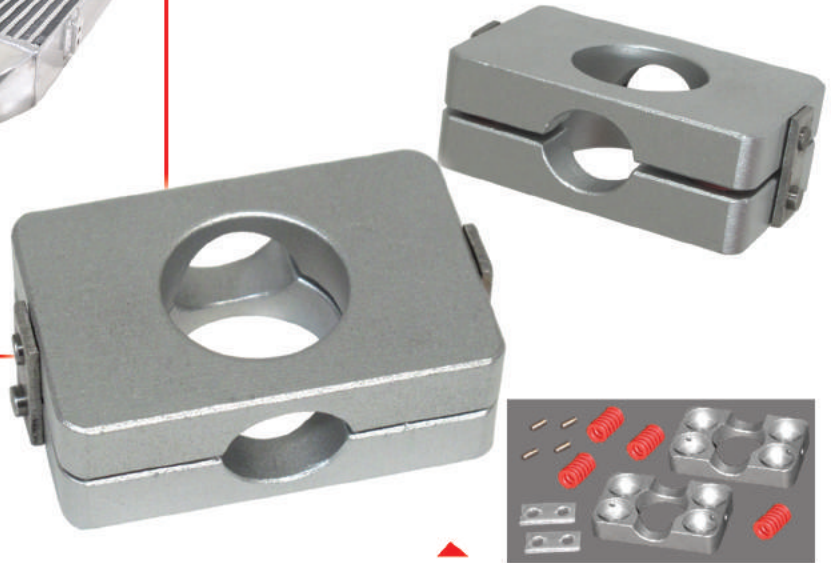

Intercooler with piping kits are designed to increase horsepower in a turbocharged engine at the same boost level and even more power at higher boost levels. It is designed to reduce the engine's inlet temperatures, a denser air charge will enter the engine. All kits are designed with specific cores to provide an ideal concession of cooling and flow, giving an aggressive look and style. All kits come with necessary mounts, aluminum piping, hoses and clamps required to install the kit.

Tube and fin intercooler offers a great balance of heat exchanging efficiency and flow, finished with TIG welded. Lightweight aluminum pipings are CNC mandrel and complete with silicone hoses. (Fabrication may be needed for different upgrades & setting)

Application: Refer to our Application List. Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation Is Highly Recommended.

Note: Intercooler & Piping Kits are separate items. Not to be mistaken as combined items.

GET FULL TRACTION WITH LSD'S.

LSD's convert your stock open differential to a Limited Slip Differential. No more 1 wheel burn outs. Get full traction with both wheels. Each LSD is equipped with extra heavy duty springs to achieve equal load distribution to the disc plates, which makes our unit reliable and gives you the performance you desire. The springs installed have enough load capacity to handle your race/drag car, autocross racer, road racer, rally racer, as well as the everyday driver. Tested to over 500hp and still functions perfectly. Increased traction, faster acceleration, eliminated torque steer, corners will be turned more efficiently, and handling is increased in all types of weather conditions.

*Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation Is Highly Recommended.

AFTERMARKET LIGHTING.

AJP Distributor carries various types of aftermarket headlights for imports, domestics, euros, and trucks. Our inventory is stocked with many designs that will best suit your aftermarket headlight upgrades. Available headlight housing options include black/clear, chrome/clear, black/amber, and chrome/amber. We also carry projector headlights as well as several LED upgrades. Our headlights are developed with high quality material, compatible with the stock wiring harness (Rewiring may be needed for certain models due to different domestic production).

Application: Check our application list. Contact us for other applications & additional inquiries.

Installation Difficulty: Professional Installation Highly Recommended.

AFTERMARKET LIGHTING.

AJP Distributor carries various aftermarket tail lights for imports, domestics, euros, and trucks. Our inventory is stocked with many designs that will best suit your aftermarket tail light upgrades. We also carry the latest LED tail light releases as well as chrome, black housing selections and smoke tint options. Our tail lights are developed with high quality material, compatible with the stock wiring harness (Rewiring may be needed for certain models due to different domestic production).

Application: Check our application list. Contact us for other applications & additional inquiries.

Installation Difficulty: Professional Installation Highly Recommended.

OIL CATCH TANKS. PROLONG YOUR ENGINE LIFE.

Oil Catch Tanks will hold oily byproducts removing it from the suspension within the air intake stream. Horsepower would then be increased eliminating the engine's burning of non-combustible oil. Prolongs the engine life preventing oil not having the ability to clog up the valve train and other moving parts and sensors.

Made of lightweight 6061-T6 Billet Aluminum and polished finish, oil catch tanks increase horsepower and prolongs your vehicle's engine life. No installation guides, easy to install. Slight mods may be required.

*Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation Is Highly Recommended.

Piping kits are designed to increase horsepower alongside with the intercooler setup in a turbocharged engine at the same boost level and even more power at higher boost levels. It is designed to reduce the engine's inlet temperatures. A denser air charge will enter the engine. All kits are designed with specific cores to provide an ideal concession of cooling and flow, giving an aggressive look and style. All kits come with necessary mounts, aluminum piping, hoses and clamps required to install the kit.

Tube and fin intercooler offers a great balance of heat exchanging efficiency and flow, finished with TIG welded. Lightweight aluminum pipings are CNC mandrel and complete with silicone hoses. (Fabrication may be needed for different upgrades and setting.)

Application: Refer to our Application List. Contact AJP Distributor for additional applications/inquiries.

Installation Difficulty: Professional Installation is Highly Recommended.

POWER & BOOST.

AJP Distributor carries turbo chargers for various makes & models. Turbo chargers increase the power output of an engine without adjusting the engine itself. Usually an engine would have to be made larger and heavier to gain power where as a turbo charger is much smaller and lighter. Turbo chargers are powered by the exhaust gases of the engine which would leave the engine and vehicle unused.

Overall, the turbo's function is to provide more air through the intake allowing efficient use of the atomized fuel. More efficient combustion provides more power. The turbo would compress the air on the intake side of the system by using expended gases on the exhaust side of the system.

Application: Contact AJP Distributor For Additional Applications.

Installation Difficulty: Professional Installation Highly Recommended.
